Summary

Junior MERN Stack Developer with hands-on experience building scalable full-stack web applications using React.js, Next.js, Node.js, and MongoDB. Strong foundation in TypeScript, RESTful APIs, authentication systems, and modern UI development with Tailwind CSS. Passionate about building production-ready products, optimizing performance, and writing clean, maintainable code.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, SQL
- **Frontend:** React.js, Next.js (App Router), Redux, Context API, TailwindCSS, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, MVC Architecture
- **Databases:** MongoDB, PostgreSQL, Prisma ORM, Mongoose
- **Tools:** Git, GitHub, Docker (Basics), Firebase, Postman, Cloudinary, Multer

Experience

Junior MERN Stack Developer

Sep 2025 – Present

App Mechanic (Remote)

Next.js, TypeScript, MongoDB, Firebase

- Developed and maintained scalable full-stack applications using Next.js and Node.js, improving feature delivery and overall application performance.
- Implemented secure authentication and role-based access control using Firebase and JWT, ensuring protected API routes and data integrity.
- Designed RESTful APIs and optimized MongoDB queries to enhance backend efficiency and reduce response times.
- Built reusable UI components using Tailwind CSS, improving consistency and development speed.

Software Engineer Intern

Jul 2025 – Sep 2025

Dume AI (Remote)

Next.js, TypeScript, React

- Collaborated with the development team to build and enhance AI-based platform features using Next.js and TypeScript.
- Improved UI responsiveness and performance across devices using optimized React patterns.
- Integrated REST APIs and ensured seamless frontend-backend communication.

Projects

Personal Portfolio

Live Link

Next.js, TypeScript, TailwindCSS

- Designed and developed a responsive developer portfolio showcasing projects, technical skills, and professional experience.
- Implemented modern UI design with TailwindCSS and optimized performance using Next.js App Router features.
- Integrated dynamic project sections and deployed using Vercel for seamless accessibility.

Poster Platform

Live Link

React, Node.js, MongoDB

- Built a Pinterest-style full-stack application featuring authentication, image uploads, and complete CRUD functionality.
- Designed RESTful backend architecture and responsive frontend UI for dynamic content rendering.

EventHub

Live Link

Next.js, TypeScript, MongoDB

- Developed an event management platform with event creation, search, filtering, and validation features.
- Implemented dynamic routing using Next.js App Router and optimized database queries for improved performance.

Education

Bachelor of Computer Applications (BCA)

Expected 2028

India
